South Central Indiana REMC Community Fund (Operation RoundUp) has selected Volunteers in Medicine as one of its grant recipients. The grant of \$3,750 was awarded to the free clinic to help fund off-site referrals for patients needing dentures.

The check presentation was made at the Volunteers in Medicine clinic by Marilyn Skirvin, a member of the SCI REMC Board of Directors, to Nancy Richman, VIM executive director.

The community-operated, community-owned and community-financed Volunteers in Medicine clinic provides free medical, dental, mental health, specialists and medications to individuals who are uninsured or medically underserved.

VIM recently celebrated its 10th anniversary of providing free health care to people otherwise unable to afford medical services.

For more information, to volunteer, or to donate to Volunteers in Medicine clinic, visit www.vimmonroecounty.org online or email info@vimmonroecounty.org.
